

Billing and Revenue Brochure

Curated local brochure for the B8ERP billing-suite product page.

- Connects meter reading, billing, collection, reconciliation, and customer service workflows.
- Emphasizes revenue visibility, exception handling, and staff productivity improvements.
- Suitable for seeded product pages that must render useful brochure downloads offline.
- Replaces the tiny placeholder PDF with a real repo-delivered document.

Primary brochure asset for /products/billing-suite.

Where It Fits

Typical roles served by the product.

- Billing teams manage tariff updates, bill generation, and account changes.
- Revenue teams follow arrears, payment plans, and reconciliation quality metrics.
- Leaders review service levels, collection cycles, and audit exceptions.
- Implementation teams reuse the same curated brochure during importer demos.

Task 6 local brochure upgrade for the Bigfoot site seed.
